ORVIS

SPRING DEALER GUIDE 2023

OBSESSIVELY DESIGNED. ENTHUSIASTICALLY TESTED.

Rooted in a deep love of fly fishing and a reverence for nature, Orvis has spent over a century relentlessly perfecting our purpose-driven designs because we know that time spent on the water is sacred. When the right gear can mean the difference between a few more hours out here or calling it quits, the magic is in the details. Those hours, months, and years spent poring over spec sheets and testing (and retesting)—they're all worth it for the hopeful thrill of just one more cast. We're here to help anglers make the most of every outing with a robust product line that blends proven classics with cutting-edge tech to simply perform when and where you need it most. Stock up for the season ahead and get prepped for every hatch on the horizon.

ACCURATE DE

No rod has ever silenced all the variables.

No engineer has ever found a way to transfer backcast energy directly into forward accuracy.

No angler has ever erased all the doubt from his or her mind.

FIRST TIME FOR EVERYTHING.

A dry-fly angler's dream with the ability to drop an Adams in a teacup or put a Charlie on a tailing bonefish's nose at 40 feet.

> With the power for pinpoint delivery of a streamer to a distant cut bank or the perfect lead in the wind to a cruising redfish at 60 plus feet.

SURPASSING ALL OTHERS AS THE INDUSTRY'S MOST ACCURATE FLY RODS EVER CREATED,

the Helios 3 series represents a fundamental shift in our design philosophy. Mandate 1: Put the ultimate premium on the ability to place your fly where the fish will be instead of where the fish was. Mandate 2: Never, ever, sacrifice feel. The H3 series beautifully achieves both in a full lineup with dual personalities. 3F is accuracy with finesse and the dry-fly angler's dream. 3D is accuracy with power at distances that border on the unfair. Each make a strong case that your time on the water is no longer just fishing. This is hunting.

EUROPEAN NYMPHING

"European nymphing technique maximizes an angler's ability to cover more water and present nymphs in the most effective way possible. Using a longer, lighter-weight rod and a tactical nymph line offers enhanced reach, sensitivity, and reduced line sag. This technique gets the flies to the strike zone faster, keeps them in the feeding lane longer, and offers anglers much improved contact with their flies for more effective and efficient drifts."

—Jesse Haller, Orvis product developer & angler

Orvis Fish/Hunt Community Leader, Drew Nisbet, Euro nymphing on the Battenkill River, VT.

Premium bamboo fly rods have been hand built in the Orvis Rod Shop in Manchester, Vermont for more than 160 years. Orvis bamboo fly rods represent a last bastion of workbench craftsmanship created by a long, proud line of American craftsmen. They are made to be fished. When modern design philosophy meets a classic material, something incredible is bound to happen.

MIRAGE[®] REELS

Big-game rods call for a reel to match. American-made large arbor with sealed, maintenance-free carbon and stainless steel disc drag that goes from zero to full drag in a single knob rotation. Superlarge arbor for increased retrieve rates and reduction in line coil. Ergonomic machined aluminum handle.

CUSTOM EMBROIDERY, DEALER EXCLUSIVES & LOGOWEAR

NAME DROP

Let 'em know who you are.

Throughout the book, this icon signifies an item is capable of accepting embroidery for custom shop or guide service personalization.

Spring 2023 Orvis Name Drop Custom Embroidery

1. Minimum embroidery orders are as follows:

Shirts - 12 per style per image or logo; choose from any available colors. *Hats* - 12 per style per image or logo; choose from any available colors.

2. Embroidery charge is \$3 per image per item or garment, except there is no additional embroidery charge for hats—the charge is included in the hat prices on this order form. Embroidery charge may exceed \$3 for very large images or high stitch counts. An extra \$1.50 will be charged for the addition of any version of the "Orvis Endorsed" logo.

3. The embroidery program offers 3 ways to customize items:

a) Use a "stock" image and "drop in" your shop or lodge name, or
b) Submit an already digitized file of your logo or image. Digitized artwork may be emailed to dealerspecialistrke@orvis.com, or
c) Submit your logo or image artwork file and Orvis will provide a digitized version from which embroidery can be created. A one-time digitization fee will apply. Artwork to be digitized may be emailed to dealerspecialistrke@orvis.com. Artwork should be vector high-resolution artwork: .AI, .EPS, .SVG, or .PDF

- 4. Allow 3 weeks for delivery. For newly digitized files, allow 3 weeks after final approval of digitization for delivery.
- 5. Changes to preseason embroidery orders must be made 6 weeks in advance of scheduled ship date.

6. Actual freight costs are charged to ship embroidery orders.

Embroidery orders may be may be emailed to dealerspecialistrke@orvis.com

Always Up for the Ride

Dogs share our beds and couches, the fires that warm us, and the journeys we take. We see the wonder of the natural world through their eyes and they make us better people. We believe dogs are family. Trust us to provide the very best products for dogs, whether pedigreed hunters, beloved rescues, or simply loving companions.

DEALER GUIDE **ICONS KEY**

These items are offered in both men's and women's sizing and colorways with identical technology. The only differences between the two are design and fit.

These items are offered in one size option; however, the sizing options accommodate both men's and women's sizes.

56

60

66

69

70

72

These items are offered in more sizing than most items in the Orvis line. In men's, this often means the item is offered in small and/ or XXXL sizing. In women's, this means that our bottoms are offered up to size 20.

The Insect Shield[®] process binds a proprietary permethrin formula tightly to fabric fibers resulting in effective, odorless insect protection that lasts the expected lifetime of apparel. Permethrin has been successfully used in the United States as an Environmental Protection Agency (EPA) registered product since 1977 with an excellent safety record. It is used in lice shampoos for children, flea dips for dogs, and various other products, some of which are regulated by the FDA.

UPF 30 blocks approximately 96%-97.4% of UV rays. UPF 45 & UPF 50+ offer excellent sun protection, blocking 97.5%-98% of UV rays.

These items are capable of accepting embroidery for custom shop or guide service personalization.

Sweat is natural and odorless but mixed with textiles it creates an ideal environment for odor-causing bacteria to multiply. Polygiene prevents the growth of odor-causing bacteria at the source, keeping clothes fresh and odor free for extended wear.
