BUILT FOR
THE
MISSION®

For much of the past 20 years, we've developed Load Carriage™ systems for the most demanding customers and environments out there: military combat and wildland firefighting. These high-level users came to us because they knew of our pack-engineering pedigree. They needed purpose-built packs that would carry monstrous loads with more stability — packs that would endure relentless hammering in the field without failure... year in and year out. Designing for this professional and industrial user has taught us about building functional, comfortable packs for hikers, backpackers, climbers, skiers, hunters, and other outdoor zealots.

With a heritage rooted in mountain sports, we're psyched to come full circle. Our goal is to partner with outdoor specialty shops whose customers demand the most evolved, proven, load-bearing designs. With so much commodity product on the market, MYSTERY RANCH packs distinguish themselves with active suspension systems and only the highest quality durable fabric and trim packages. Designed and built to endure the long haul—and then some.

MYSTERY RANCH® — BUILT FOR THE MISSION®

WARRANTY & REPAIRS

MYSTERY RANCH designs and manufactures packs for the job that needs to get done, supporting customers who rely on our packs to get home at the end of the day. Our Warranty guarantees everything we build against defects in materials and craftsmanship for the practical lifetime of the product. We will happily offer repair or replacement for issues with materials or craftsmanship. Damage due to normal wear and tear or misuse can be repaired for a reasonable charge.

PATENTS

Most MYSTERY RANCH products are covered by US and Foreign Patents, and other Patents Pending.

US Patents include:

US 6,626,342 B1; US 7,673,777 B2; US 8,381,956 B2; US 8,561,866 B2; US 8,950,644 B2; US 8,348,114 B2; US 8,579,171 B2; US 9,173,473 B2; US 9,271,559 B2; US 8,162,194 B2 ; US 8,955,792 B2

CERTIFICATIONS

MYSTERY RANCH maintains an ISO 9001:2015 Quality Management System.

MATERIALS & TECHNOLOGY

CORDURA®

CORDURA® fabrics

YKK®

YKK® Zippers

**FUTURA
YOKE**

FUTURA YOKE SYSTEM

The patented MYSTERY RANCH Futura Yoke system enables you to micro-adjust the torso length, making it a crucial piece of the pack's structure.

**OVERLOAD®
FEATURE**

OVERLOAD® FEATURE

The patented OVERLOAD® feature provides functional expandability via a load sling between the pack and the frame, allowing you to put the bulk of the weight closest to your back for optimal comfort.

**GUIDE LIGHT MT™
FRAME**

GUIDE LIGHT MT™ FRAME

The patented GUIDE LIGHT MT™ FRAME continues the load carriage tradition with its rigid yet dynamic frame system. Utilizing custom-developed SJ Autolock buckles and 500D Light Plus CORDURA® fabric in combination with the five-point waistbelt, this frame delivers strength and durability regardless of the load.

BACKPACK HUNTING PACKS

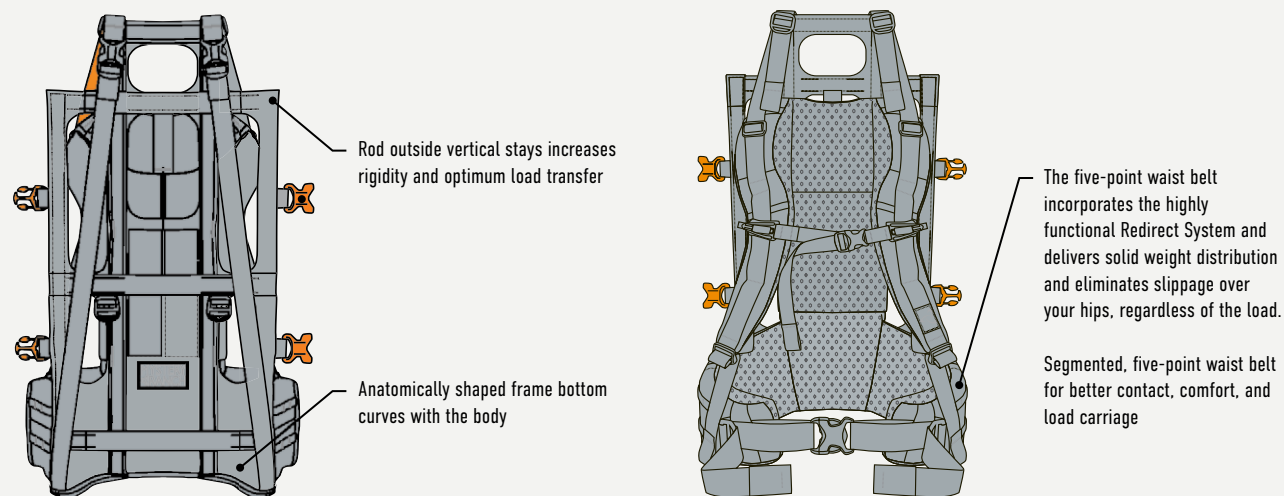

Whether you're hopping on a bush plane for a 10-day sheep hunt or doing a day hunt in the back forty, these packs are your solution.

These packs are designed for the hunter needing to keep their gear clean, dry, and organized. The OVERLOAD® feature remains at the ready for the real work: hauling game out of the wilderness.

ENDURE THE PURSUIT.

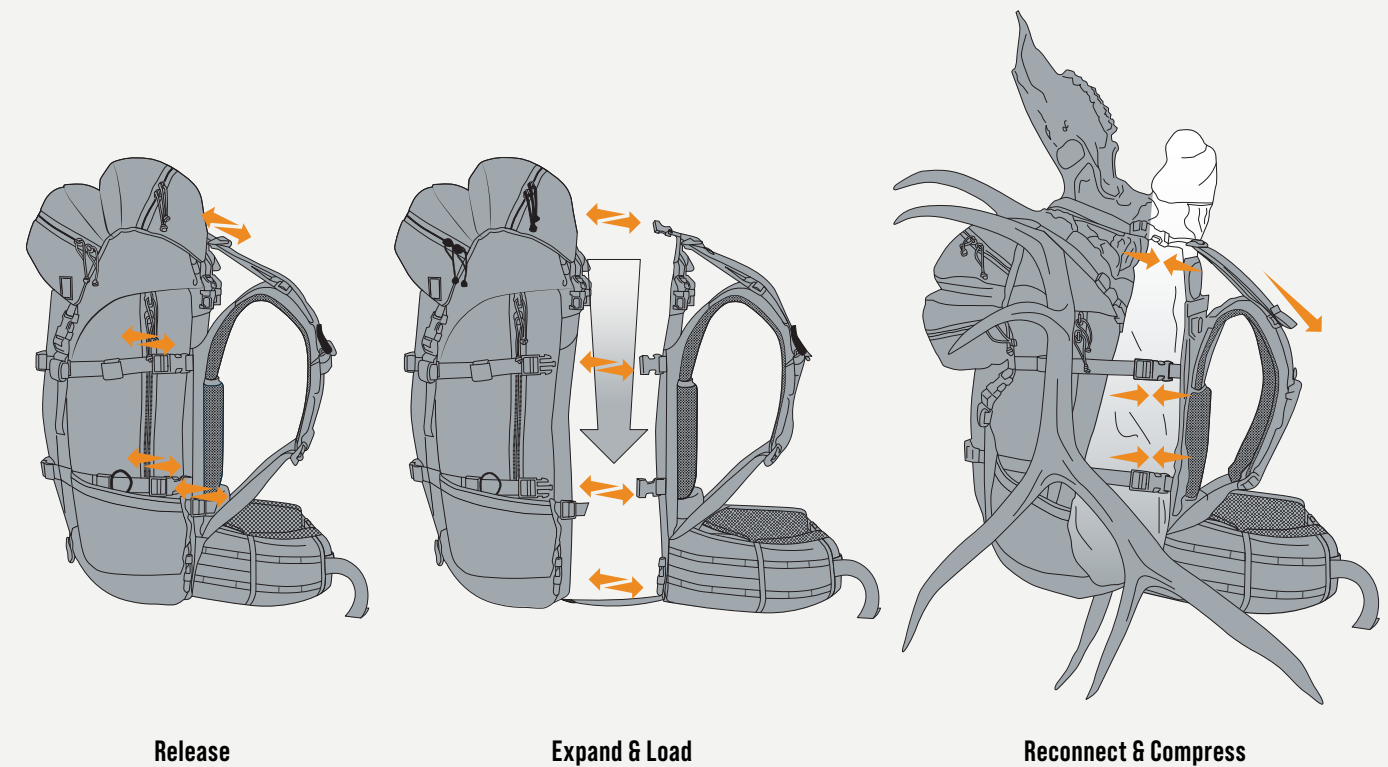

The GUIDE LIGHT MT™ FRAME continues the load carriage tradition of the tried-and-true GUIDE LIGHT™ FRAME and its rigid yet dynamic frame system—but with a few discreet changes. Utilizing custom-developed SJ Autolock buckles throughout the attachment points, this new hardware collection provides the perfect blend of strength and weight. The 500D Light Plus CORDURA® fabric delivers high tensile and tear resistance — key characteristics for a robust, purpose-driven hunting frame. Additionally, the five-point waist belt incorporates the highly functional Redirect System, which delivers solid weight distribution and eliminates slippage over your hips, regardless of the load.

READY FOR THE PACK OUT.

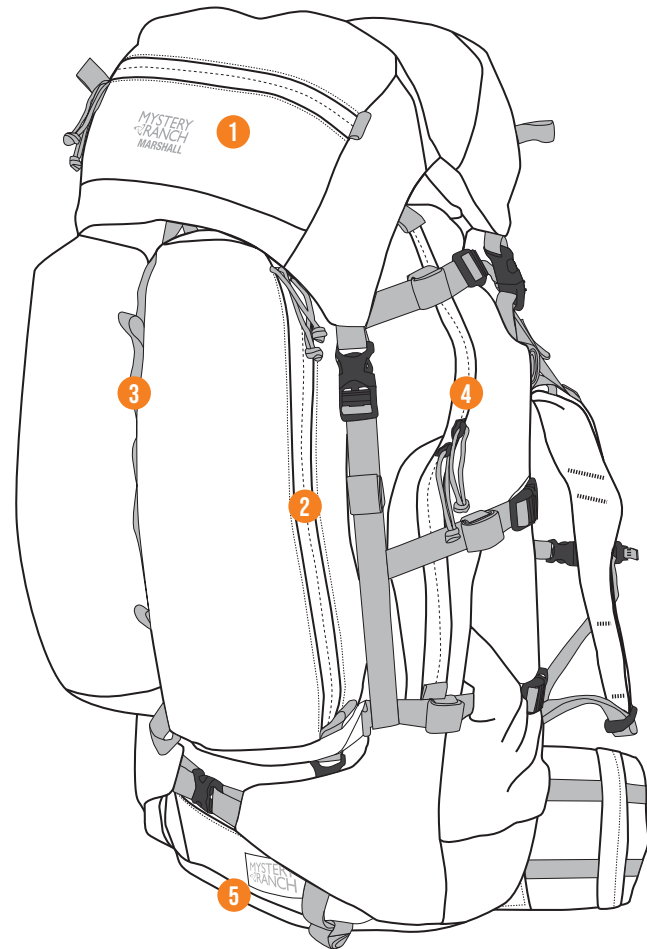

Functional expandability — via the patented OVERLOAD® feature — is designed into select MYSTERY RANCH hunting packs. This key feature allows you to put the bulk of the weight closest to your back for optimal pack out comfort. With added length to the compression straps, you can easily place meat/quarters between the pack and the frame and secure it with the auto-locking buckles for a load that won't loosen over time.

MARSHALL

Like its namesake – the Bob Marshall Wilderness – this pack is expansive, with accessibility via a top-load shroud and full-length, dual-side zips. Two additional long pockets and a sleeping bag compartment make this pack perfect for any expedition.

KEY FEATURES:

- 1 Removable Daypack Lid with shoulder straps
 - 2 Two external long pockets for rapid access are sized for spotting scopes
 - 3 Daisy chain for attaching accessories
 - 4 Side zip for easy access to main bag
 - 5 Speedzip™ compartment for easy access to sleeping bag
- Includes Quick Attach Accessory Straps for bow or rifle carry

BRINGING HOME THE MEAT.

POP-UP FRAME

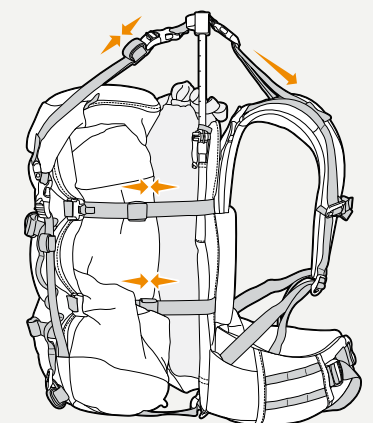

The POP-UP FRAME feature converts this daypack into a load-hauling system. For those shorter, successful dayhunts, shouldering out the brutal weight necessary for extraction is a necessity. This function allows the frame to easily expand and adjust to carry loads up to 80 lbs. It features expandable pole stays and the OVERLOAD® feature.

RIP RUCK 15

The smallest in the RIP RUCK series, this pack has a main Rip-Zip compartment that has a laptop and document sleeve, a zippered mesh pocket, and two internal side pockets. Its low-profile, minimalist design will make any commute less of a hassle.

KEY FEATURES:

- 1 Quick Rip-Zip panel access to drop-in compartment for easy one-handed open and close that is secured with magnets
- 2 Vertical entry zippered face pocket with interior dividers
- 3 PALS Webbing on top of lid for MOLLE accessories
 - Floating padded sleeve with Velcro closure fits laptops up to 15"
 - Additional document sleeve is lined with Velcro for attaching accessories

RIP RUCK 24

This mid-size pack in the RIP RUCK series will be your best travel companion because of its organization. It has two main compartments: a zip access to a separate laptop and document sleeve and a Rip-Zip compartment that has a sleeve, zippered mesh pocket, and plenty of space for all of your other must-haves.

KEY FEATURES:

- 1 Quick Rip-Zip panel access to drop-in compartment for easy one-handed open and close that is secured with magnets
- 2 Two lower Rip-Zip pockets with quick-pull magnetic open and close
- 3 Laptop pocket with sleeves for papers and notebooks, holds up to a 15" laptop
- 4 PALS Webbing on top of lid for MOLLE accessories
 - Floating padded sleeve lined with buffalo fuzz fits laptops up to 15"
 - Additional document sleeve

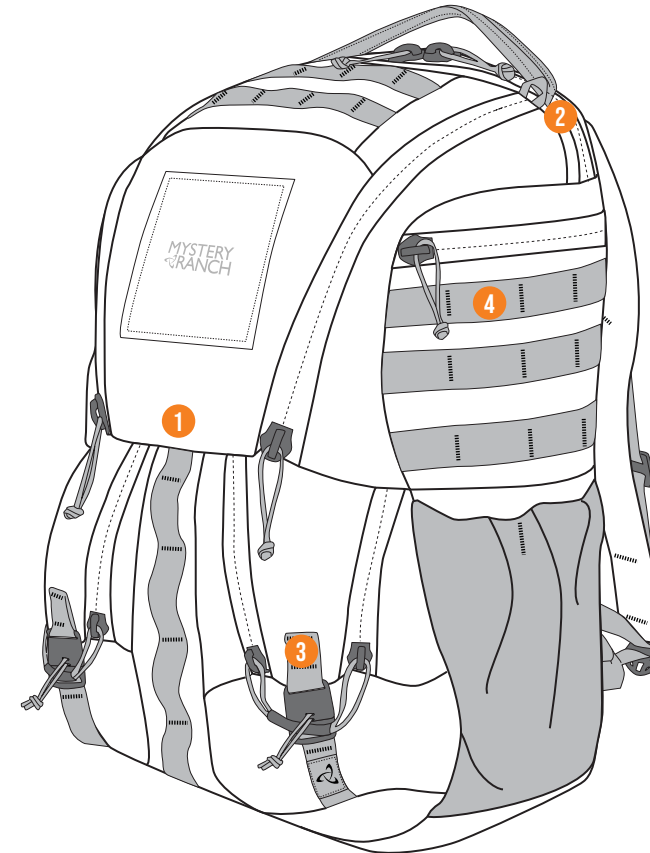

SPECS:

Weight: 1.0 kg (2.3 lbs)
Vol: 24 L (1465 cu-in)
Size: One Size

RIP RUCK 32

Inspired by the military ALICE RUCK, the RIP RUCK 32 is the largest of the series. This Swiss Army Knife of a pack is full of pockets and organizational features that work well for travel, the office, and everywhere in between.

KEY FEATURES:

- 1 Quick Rip-Zip panel access to drop-in compartment for easy one-handed open and close that is secured with magnets
- 2 Top zip access to separate laptop and document compartment (fits laptop up to 15")
- 3 Two lower Rip-Zip pockets with quick-pull magnetic open and close
- 4 Two upper exterior zipper pockets
 - Rip-Zip compartment has divided, zippered mesh pocket and document sleeve
 - Stowable waist belt tucks into compartments beneath the water bottle pockets when not in use

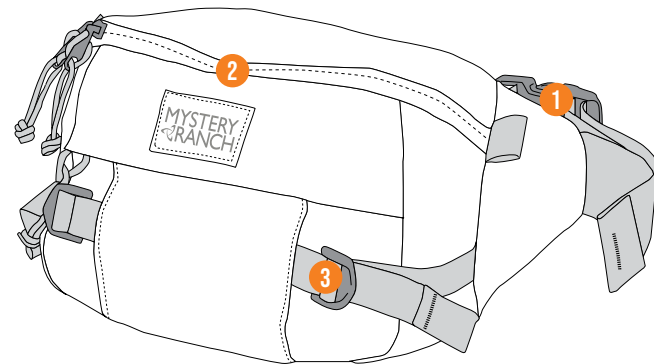

SPECS:

Weight: 1.7 kg (3.8 lbs)
Vol: 32 L (1955 cu-in)
Sizes: S/M L/XL

HIP MONKEY

The HIP MONKEY's exterior is deceptively trim, but it can easily swallow an extra layer, gloves, water bottle, headlamp or kill kit etc. Accommodate your favorite six pack or a few fly boxes for an afternoon on the river.

KEY FEATURES:

- 1 Waist belt is designed for carrying around the hips or over the shoulder
- 2 Zippered access to main bag
- 3 Dual-compression straps
 - Front pocket with key clip

SPECS:

Weight: 0.4 kg (0.9 lb)

MISSION STUFFELS

Born in the same style as our MISSION DUFFEL and nesting into its own boot compartment, this convertible duffel takes up less space than a sweater when packed, making it a no-brainer to toss into your bag to accommodate the extra goodies you picked up on your trip – and freeing up floor space that traditional luggage has a hold on.

KEY FEATURES:

- 1 Shoulder straps can be worn as a backpack or easily removed for quick storage
- 2 Huge main compartment access through a long horseshow opening
- 3 Zippered boot compartment where pack also stuffs into
- 4 A handle on all four sides

FITTING & SIZING

The key to a comfortable pack load is a properly fitting backpack. We've designed our packs to have a more custom fit with simple sizing based off of two measurements.

Backpack Fitting

GETTING YOUR SIZE

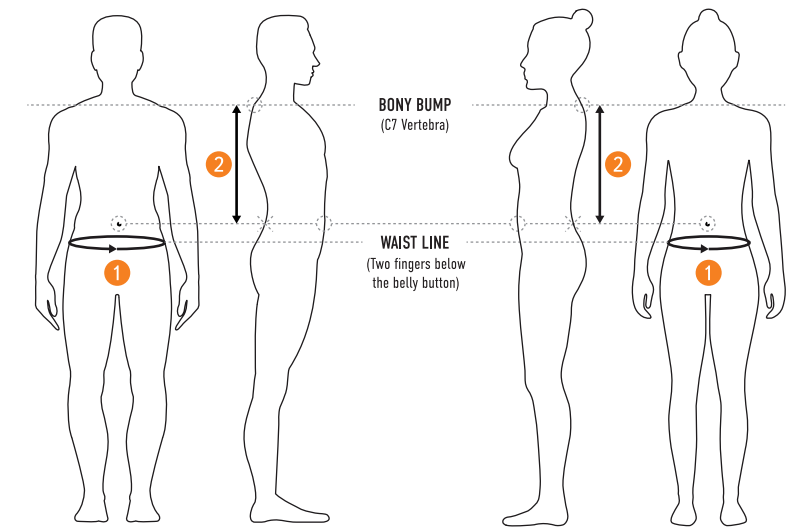

To find the appropriate size waist and yoke for your pack, collect the following two measurements, then reference the sizing chart below.

1 Waist Circumference

Measure around your waist just above the top of your hip bones (roughly two fingers below your belly button).

2 Torso Length

Use a tailor's tape measurer or string and have a friend measure between the bony bump at the base of your neck (C7 vertebra) to the spot on your spine that is just behind your belly button.

Men's Sizing

S		M		L		XL	
Torso	Waist	Torso	Waist	Torso	Waist	Torso	Waist
S/M	XS/S	S/M	S/M	L/XL	M/L	L/XL	L/XL
